A passionate web developer focused on front end UI/UX. Graduated from Portland Community College and earned an Associates degree in Web Design. Went on to intern for several months with a start-up company called Dev Lions. Most recently completed a full stack 6 month bootcamp program at the University of Oregon. I'm now a full stack developer seeking a position at a company that would benefit from my expertise in web development, dependability and creative flair.

SKILLS

FRONT-END: HTML, CSS, JavaScript, jQuery, Bootstrap, React.js

BACK-END: Node.js, Express.js, MongoDB, MySQL, Database Theory, Command Line, Firebase

APPLICATIONS: Photoshop, WordPress, Microsoft Office, Slack, GitHub, Heroku, Netlify

PROJECTS

MUSICK APP: HTML, CSS, Materialize, JavaScript, AJAX

An application that allows the user to search for an artist to see if they are playing nearby.

Worked primarily with AJAX calling the API's in this group project.
